

Dear Donor,

I am writing to express my gratitude for being awarded the HeForShe IMPACT Champion Scholarship once more for this academic year. Being chosen as the scholarship recipient is a great honor for me as it rewards the effort I put in each academic year both academically and socially. Your donation and support have had a big influence on my academic progress as it shows someone cheering me on to do better in all aspects. I am able to concentrate on my schoolwork and take part in extracurricular activities because of your financial support which has taken such a huge weight off my shoulders.

Studying, touring Hong Kong, and participating in extracurricular activities have made my stay thus far enjoyable. I have also been able to keep networking and making friends thanks to the scholarship I received.

After being able to have the engineering training which deepened my understanding of the concepts I had been taught in the previous year, and taking extra courses in electrical engineering and other departments, I was able to secure a position as a student research assistant at the ECE department where I have been applying skills learnt and learning new skills to assist my supervisors on their projects. Having to work with others during the internship period showed me how fulfilling it is working together in a group to complete projects and meet strict deadlines. It also made me see how exciting the world of academia is and subsequently piqued my interest in possible postgraduate studies after graduating.

Outside academics, I emerged as a top performing student ambassador after helping with numerous events, such as information day, counselors taster and promotional videos for HKU. I was awarded an all expense paid trip to Tokyo, Japan for this achievement. I was able to have a nice break after the semester on the trip, talk and share my experiences with students with HKU offers, and introduce HKU to high school students while showing HKU's diverse community.

This year I was able to join softball competitions and won gold for both the inter-hall competition and the inter-university. I was put on the field just half a year after joining the team and the first game was in Chiang Mai representing HKU as I was committed fully in order to represent the University.

Your support has been one of the things that keep me motivated to give back to the university and improve the lives of others, while improving mine. I want to thank you again for your kindness. Your financial support towards my studies is having an effect on my time at HKU without which nothing could've been achieved. I commit to maximizing this chance and pursuing greatness in all that I do.

Once again, I would like to thank you so much for your help and support.

Sincerely,

Beni Esther Aku.
